COVID Situation Update

As many of you are aware, the province of Saskatchewan has declared a state of emergency. Part of keeping order in society as this pandemic unfolds is the importance of “keeping the lights on”. Our IBEW 2067 members are an integral part in doing that during these difficult times.

The Covid 19 pandemic has presented an extraordinary, and unprecedented set of challenges for all our members and SaskPower. We can only be so prepared for the unexpected, as such it has been a busy week tackling the issues as they arose. IBEW and SaskPower have worked together to ensure plans have been put in place and are in the process of being implemented. These plans may need to change in the upcoming weeks as new challenges come to light. We are asking our members to be understanding and work with these changes as they come.

At the forefront of these plans is our member’s safety. Please ensure cleanliness, hand-washing and social distancing. If you are sick, please do not put others at risk. When sharing tools, equipment, work stations or areas of the shop use a bleach solution to clean and disinfect often to help reduce the spread of germs. Wear protective gear when disinfecting. Please ensure you are using cleaning products responsibly as a world-wide shortage currently exists.

Shifts may change, work may change, but we will endeavor to follow the CBA. Your Union will do its utmost to protect you and your work as always. We will have to wiggle through some hoops as we get through this, but we will come out of this stronger and with the appreciation of the Employer and the people of Saskatchewan.
