IBEW Warrant Process

Hello Brothers and Sisters of IBEW Local 2067, since the past election of officers within the Local Union our Local has been working with the International on a new process for approving expenditures. The new process has made things more time consuming and at sometimes much more difficult to process payments. As a result of these changes, we have moved to what is referred to as a Warrant system. This system requires that motions be made by the Executive to the membership for approval of all expenditures not covered under a document known as Standing Bills. Standing Bills are those bills approved by the International and membership on an already approved list of payments. This would include rent, utilities, and payroll to name a few. All other payments are required to be motioned by the Executive and approved by the members in attendance at the scheduled Unit meetings.

We will do our best to provide detailed information contained within the motions so that the membership is able to make determination on if you feel the money being sought for approval is in the interest of the Local. If the motion passes, then a Warrant is issued by the Recording Secretary and the President and Treasurer of the Local approve the Warrant and issue payment.

Should the motion be defeated the International will be consulted and a process put in place to either resubmit the motion to the membership for approval with further clarification or outright rejection of the expenditure, or approval by the International or Executive as per the Constitution will take place.

To prevent confusion and provide some ease, cost allocation motions may be presented to the membership which would reduce the number of motions but would only be approved for expenditures covered under the motion.

Should you require additional clarification please contact the Financial Secretary or Executive and we will work with you to answer questions related to the warrant process.
